

Package: Rhdf5lib (via r-universe)

May 17, 2026

Type Package

Title hdf5 library as an R package

Version 2.1.0

Description Provides C and C++ hdf5 libraries.

License Artistic-2.0

Copyright vendor/hdf5/COPYING

LazyLoad true

VignetteBuilder knitr

Depends R (>= 4.2.0)

Suggests BiocStyle, knitr, rmarkdown, tinytest, mockery

--------------	----------

getHdf5Version *Report the version of HDF5 distributed with this package*

Description

This function returns the version number of the HDF5 library that is distributed with this package.

Usage

```
getHdf5Version()
```

Value

Returns a character vector of length 1 containing the version number.

Examples

```
getHdf5Version()
```

pkgconfig *Compiler arguments for using Rhdf5lib*

Description

This function returns values for PKG_LIBS variables for use in Makevars files.

Usage

```
pkgconfig(  
  opt = c("PKG_CXX_LIBS", "PKG_C_LIBS", "PKG_CXX_HL_LIBS", "PKG_C_HL_LIBS")  
)
```

Arguments

opt A scalar character from the list of available options; default is PKG_CXX_LIBS. Valid options are PKG_C_LIBS, PKG_CXX_LIBS, PKG_C_HL_LIBS and PKG_CXX_HL_LIBS, where HL indicates that you want to include the HDF5 'high-level' API and CXX denotes including the C++ interface.

Value

NULL; prints the corresponding value to stdout.

Examples

```
pkgconfig("PKG_C_LIBS")
pkgconfig("PKG_CXX_LIBS")
pkgconfig("PKG_C_HL_LIBS")
pkgconfig("PKG_CXX_HL_LIBS")
```

Rhdf5lib

Rhdf5lib: A version of the HDF5 library built into an R package.

Description

This package provides a compiled version of the HDF5 library bundled within the R package structure. It is primarily useful to developers of other R packages who want to make use of the capabilities of the HDF5 library directly in the C or C++ code of their own packages, rather than using a higher level interface.
